

A Bachelor's in Business/Management prepares you to be a leader in the business world.

You will be trained to analyze a business and its employees, identify problems or areas of possible improvement, design solutions, set goals, and then provide leadership in accomplishing those goals. Your studies will also include education in the areas of communication, finance, marketing, and business law. You will learn the essentials of leadership in the business setting: how to motivate others, organize, and allocate money, resources, and effort. Next, you will learn how to piece your knowledge and skills together in addressing any and all areas of a business that are in need of problem-solving. At the time you have attained this degree you will have a solid understanding of how business functions on a number of levels. You will have gained a working knowledge as to the role of management within a business. With this training, you will possess the ability to make a positive difference in the business world. This major will prepare you for: The Business Management degree has a very broad range of qualifying jobs/career opportunities, including: operations management, project management, consulting/analysis, entrepreneur, human resources, government agencies, hospitality, and education. It is possible to specialize within this degree in many of these and other specific areas, or continue your specialization with a master's degree or Ph.D. Senior business administration, teaching at the collegiate level, research, or a law degree are some of the options that accompany further education beyond this degree.
